

## ROMOLD DN1000 Manhole for PE Pipelines

Manhole chambers for use on PE pipelines in directional drilled or open trench application

- Modular design
- Fabricated base
- Inlets & outlet spigots to suit design Requirements
- Ladder included
- Height adjustable to nearest cm
- Approved for traffic loading

### Specifications:

Material:	Polyethylene fabricated base, polypropylene upper units
Ladder:	Glass-filled polypropylene
Diameter:	1000mm or 625mm
Pipe sizes:	Configurations to suit design
Maximum depth:	5m
Maximum groundwater height:	4m
Traffic loading:	Class D (meets HN-HO-72)
Maximum permanent temperature:	50°C
Joints:	EPDM seals between elements or welded upper elements (PE)
Benching:	Fabricated to suit design.
Manhole cover:	DI 600 clear opening, 850mm OD round frame
